SKILLS

- ❖ **Programming Languages:** Python, JavaScript, Golang, HTML5, CSS3
- ❖ **Web Development:** React, Node.js, Django, Responsive UI, REST API integration, Gemini API
- ❖ **Backend:** FastAPI, Go (Gin/Echo), JSON handling, basic API development
- ❖ **Cloud:** AWS (EC2, S3, IAM), Docker, Git, GitHub, Virtual Environments
- ❖ **Machine Learning:** Machine Learning Techniques , Data preprocessing, feature engineering, Random Forest, basic XGBoost, model evaluation, Linear Regression
- ❖ **Data & Visualization:** Pandas, Numpy, CSV data handling, Leaflet.js heatmaps, Matplotlib
- ❖ **Tools & Platforms:** Git, GitHub, VS Code, virtual environments
- ❖ **Core CS:** Operating systems and computer networking , DBMS

EDUCATION

- ❖ **B.Tech in Computer Science Engineering**
VIT Bhopal University | 2023 – 2027
CGPA: 7.48
- ❖ **Class 12 (2023)** | 2023
Cleared JEE Main and awarded a full tuition fee scholarship under the MMVY academic excellence scheme.

ACADEMIC PROJECTS

- ❖ **EduMitra – AI Learning Chatbot**
Built an AI chatbot using HTML, CSS, JavaScript, and Gemini API to answer students' academic queries through a simple web interface.
- ❖ **Quizique – Online Quiz Application**
Developed a responsive quiz website using HTML, CSS, and JavaScript with dynamic questions, scoring, and instant feedback.
- ❖ **Intelligent Disease Prediction & Analysis System**
Implemented a machine learning-based disease prediction system using Random Forest/XGBoost on 5,000+ records, with a FastAPI backend and map-based visualization.

Activities & Extracurriculars

- ❖ MERN Stack Club – Technical events participation
- ❖ NSS – Community service activities
- ❖ Finance Club – Event participation
- ❖ INNOVATEX Hackathon – Participant
